

## SHORT TERM SCIENTIFIC MISSION BRIEF

Action number: AGA-CA17132, ECOST-STSM-Request-CA17132-43477

STSM start and end date: 2019-03-04 - 2019-03-14

Grantee name: Frank ZENKER

Home institution: Lund University, Sweden

Host Institution: Arglab, FCSH – Nova University, Lisbon, Portugal

Research interest: argumentation theory

The STSM served

- (i) to coordinate with members of the host institution of COST action CA17132— The ArgLab at the New University of Lisbon, Portugal – on the future working procedure of working group 2 (WG2), which the applicant leads, and
- (ii) to generate substantial parts of WG2's first deliverable, due in autumn 2019.

The chief goal here is to develop, along with the members of the ArgLab who participate in the project, a state-of-the-art account of the philosophical approaches to the normativity of public argumentation.

The applicant used the STSM to prepare WG2's work meeting (in late March in Lisbon), and to create a template and draft text for WG2's first deliverable: an overview of focal norms and methods to evaluate public argument.
